ENERGY & INFRASTRUCTURE CONSULTING

- Energy Audits & Sustainability Solutions
- Generation, Storage, & Distributed Infrastructure
- Building Efficiency Innovation & Retrofitting
- IoT and OT Communications & Controls
- Combined Heating and Power (CHP)
- Logistics & Distribution Management

CONTRACTING FLEXIBILITY & TEAMING

Certification with SBA allows service-disabled veteran-owned small businesses (SDVOSBs) to compete for federal sole-source and set-aside contracts across the federal government. Certified veteran-owned small businesses (VOSBs) have additional opportunities to pursue sole-source and set-aside contracts at the U.S. Department of Veterans Affairs (VA) under the VA's Vets First program. The Service-Disabled Veteran-Owned Small Business Concern (SDVOSBC) Program was developed to help agencies meet the government-wide goal that not less than 3% of the total value of all prime contract and subcontract awards be made to small businesses owned and controlled by service-disabled veterans stipulated by the Veterans Entrepreneurship and Small Business Development Act of 1999. As a VOSB and SDVOSB, Agora Logistics & Infrastructure is eligible for these government and private sector procurement programs and is eligible for sole source awards up to \$4.5M.
